Eco-Logic Tech

What is eco-friendly?

1. Biodegradable
Products and materials that are capable of being decomposed.
2. Recyclable
Products with materials that are able to be recycled.
3. Reusable
Products that can used more than once.
4. Recycled
Products that utilized reusable materials.
5. Compostable
Products that are capable of breaking down in a compost environment.
6. BAT Technology
Additive that enhances the biodegradability of plastic in landfills.

Why is Eco-Friendly an important change for your brand?

1. Bring positive awareness to your brand by encouraging the use of sustainable products.
2. Lower cost for a long-term investment. Eco-Friendly products tend to last much longer due to the sturdiness of the materials.
3. Manufacturing processes are greener and help preserve resources.
4. Pollution and contamination are reduced by re-using materials.
5. Eco-Friendly products can be easily recycled.
6. Reduce carbon footprint.
7. The future!

Materials

1. RPET
RPET is recycled PET, a type of plastic that is used to manufacture plastic bottles and food containers. PET is 100% recyclable and it is the most recycled plastic in the US.

2. Wheat Straw
Wheat straw is bio waste from wheat grain harvesting. The plastic is created by breaking down cellulose in the wheat grain. Wheat straw is 100% biodegradable and compostable.

3. Bamboo fibers
Bamboo is 100% biodegradable and compostable. It grows fast and requires less water making it a sustainable material.

4. Natural Cork
Natural cork is 100% renewable, recycled and biodegradable. It is harvested from the bark of the cork oak, trees are not cut down.

Roll-Up WaterBottle

HA07

Key Features

- Reusable
- 20 ounces
- Dishwasher safe
- Large imprint area
- BPA free

Materials

- **Food grade silicone**
- **Silicone is derived from sand, and manufacturing does not involve mining for crude oil, which is how most plastics are manufactured**

Eco-Friendly Conference Bluetooth Speaker

CA110

Key Features

- Perfect for conferences
- Dual built-in microphones
- Noise canceling
- USB and type C connectivity
- Up to 6 hours of playtime
- Made with recycled plastic and natural cork
- Anti-bacterial top
- Amazing sound quality

Materials

- 35% wheat straw
- 100% recyclable package
- Recycled fiber and wheat straw micro USB cable

Eco-Friendly Bluetooth Speaker

CA60

Key Features

- Biodegradable housing
- Bluetooth 5.0
- Compatible with Android and iPhone
- Indicator light
- Great sound
- Rechargeable via micro USB cable
- Up to 1.5 hours of playtime

Materials

- RPET (recycled water bottles 20%)
- Natural cork
- 100 % recyclable packaging
- Attached cable is made from RPET and recycled fibers

Materials

- **Bamboo**
- **Bamboo is 100% biodegradable and compostable. It grows fast and requires less water making it a sustainable material**

Eco-Friendly Wireless Charging Mini Speaker CA64

Key Features

- Biodegradable housing
- Bluetooth 5.0
- Compatible with Android and iPhone
- 5-watt wireless charger
- Great sound
- Rechargeable via micro USB cable
- Up to 2 hours of playtime
- SAFETY: Metal object detection
Overheating protection

Bamboo Wireless Charger WC05

Key Features

- 10-watt wireless charger
- Qi inductive charging technology
- Compatible with Android and iPhone
- Sleek design
- Laser engraving only

Materials

- **10% wheat straw**
- **100% recyclable package**
- **Recycled fiber and wheat straw micro USB cable**

Eco-Friendly Foldable Wireless Charger

WC30

Key Features

- Biodegradable housing
- Bluetooth 5.0
- Compatible with Android and iPhone
- 15-watt wireless charger
- Fast charging capable with 9V wall adapter
- LED indicator light
- Fully foldable
- SAFETY: Metal object detection
Overcurrent protection

Materials

- 35% wheat straw
- 100% recyclable package
- Recycled fiber and wheat straw micro USB cable

Eco-Friendly Wireless Charger

WC18

Key Features

- Biodegradable housing
- 10-watt wireless charger
- LED indicator light
- Micro USB cable must be plugged into wireless charge
- Large imprinting area
- SAFETY: Foreign object detection
Overcurrent protection

Materials

- 35% wheat straw
- 100% recyclable package
- Recycled fiber and wheat straw type C cable

Materials

- 30% wheat straw
- Recyclable package
- Drawstring pouch available at an additional cost (Pouch can be imprinted)

Eco-Friendly Multi-Use Charging Cable

WC42

Key Features

- Biodegradable housing
- USB connector
- Micro USB connector
- Lightning connector
- Type C connector
- Compatible with Android and iPhone
- Compact

Eco-Friendly Charging Cable

CA44

Key Features

- Biodegradable housing
- USB connector
- Micro USB connector
- Lightning connector
- Type C connector
- Compatible with Android and iPhone
- Compact

Materials

- 30% wheat straw
- Bamboo
- Recyclable package
- Drawstring pouch available at an additional cost (Pouch can be imprinted)

Materials

- **30% wheat straw**
- **Recyclable package**
- **Drawstring pouch available at an additional cost (Pouch can be imprinted)**

Silicone Storage Bags

HA08

Key Features

- Reusable
- Microwave, steamer and freezer safe
- Dishwasher safe
- Airtight seal
- Available in two sizes:
Large
Small

Eco-Friendly Charging Cable Kit

CH06

Key Features

- Biodegradable housing
- Type C to type C cable
- USB connector
- Micro USB connector
- Lightning connector
- Sim card tray opener
- Compatible with Android and iPhone
- Compact

Materials

- **Non-toxic silicone**
- **Silicone is derived from sand, and manufacturing does not involve mining for crude oil, which is how most plastics are manufactured**

Straws

Straws

Stainless Steel Straw Kit (Straight)

HA02-S

Key Features

- Reusable
- Silicone tip and gasket set included
- Cotton drawstring bag included
- Cleaning brush included

Retract-A-Straw

HA27

Key Features

- Stainless steel telescopic straw
- Telescopic wire cleaning brush
- Stainless steel carrying case
- Split ring attachment
- Hand wash recommended

Stainless Steel Straw Kit (Bent)

HA02-B

Key Features

- Reusable
- Silicone tip and gasket set included
- Cotton drawstring bag included
- Cleaning brush included

Collapse-A-Straw

HA05

Key Features

- Stainless steel telescopic straw
- Wire cleaning brush
- Carrying case
- Carabiner clip attachment
- Hand wash recommended
